

Clinical Treatment Guidelines for Alcohol and Drug Clinicians: Methamphetamine Dependence and Treatment

Australian Government Department of Health

This resource was funded by the Australian Government Department of Health.

*These guidelines assist AOD clinicians in their work with clients experiencing methamphetamine **dependence**.*

RESPONDING TO CHALLENGING SITUATIONS RELATED TO THE USE OF PSYCHOSTIMULANTS

Summary: These guidelines assist alcohol and drug clinicians in their work with clients experiencing **methamphetamine dependence**. They include a set of tools for responding to acute presentations, dependence and harms, as well as a selection of worksheets that clinicians can use with their clients to help monitor drug use, improve decision-making and problem solving skills, and plan for relapse prevention.

Developers: Lee, N., Johns, L., Jenkinson, R., Johnston, J., Connolly, K., Hall, K. & Cash, R. (2007). Clinical Treatment Guidelines for Alcohol and Drug Clinicians. No 14: Methamphetamine dependence and treatment. Fitzroy, Victoria: Turning Point Alcohol and Drug Centre Inc.

These guidelines were developed by the [Turning Point Alcohol and Drug Centre](#) under funding provided by the Drug Treatment Services Unit, [Department of Human Services Victoria](#).

Year: 2007

Costs: Free

Evidence base: This resource has undergone expert review. Refer to the guidelines for full reference list.
